Summary

Sliding Clothing Hook for Container Store Elfa Closet System Wire Shelves.

1.89 hrs	1 pcs	0.32 mm	0.60 mm	PLA	57 g	Prusa MK4S

Household > Bedroom

Tags: hook elfa

Simple clothing hook. Clips on to the Elfa wire shelves that the Container Store sells for custom closets. The hook can slide forward to hang things or backwards to be out of the way. Able to hold a shirt, pants or hat. Not for heavy objects.

Three hooks. One small one with limited length to the hook. Two longer range. One has interior holes along the shaft to increase the weight carrying capacity. The holding strength has not been tested scientifically, but did work with various items.

Added two more hooks 1/31/25. Printed with supports in PLA.
